

Pat-Add AF 174

PFAS-FREE DEFOAMER AND DEAERATOR FOR SOLVENTBORNE SYSTEMS

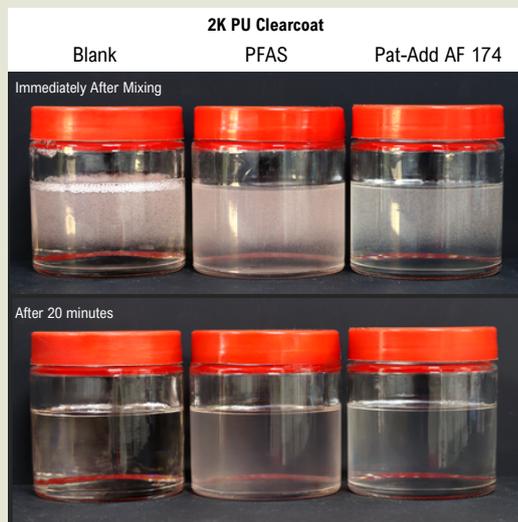

Pat-Add AF 174

Pat-Add AF 174 is a PFAS-free defoamer and deaerator that efficiently controls foam without sacrificing performance or safety.

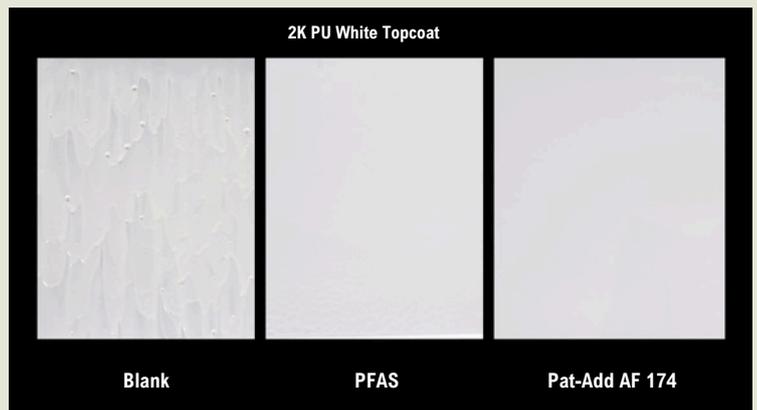

- Rapid defoaming action for fast cure systems
- Strong performance in applications prone to air inclusion
- Compatible with various solventborne resin and solvent systems
- Stable and effective in diverse temperatures and conditions
- Improves coating quality and surface finish

COMPATIBILITY IN CLEAR COATS

EFFICIENCY IN PIGMENTED SYSTEMS

RECOMMENDED DOSAGE:

0.1-0.8% on total formulation

STAGE OF ADDITION:

Millbase and Letdown

APPLICATION:

- SB Architectural CoatingsS
- SB Wood Coatings
- SB General Industrial Coatings
- SB Marine and Protective Coatings
- SB Automotive Coatings
